ABOUT ME

I am at the beginning of a new chapter in my life as Front-End Developer. What I love about programming is the ability to create something amazing and how that ability continues to grow year after year... sky is the limit! I am very excited about evolving in that field.

PROJECTS

Singing practice - web application for for everyone who would like to try their best and... sing!
Technologies used - React, React-Router, Bootstrap, SASS, Webpack

Link - https://jciechanowski93.github.io/Singing-Practice/#/
